

A woman in a pink bikini is relaxing in a wooden lounge chair on a stone patio. She is looking towards a swimming pool that features a large, multi-tiered waterfall on the right side. The pool is surrounded by lush tropical landscaping, including palm trees and various green plants. In the background, a white boat is docked at a pier, and a large, two-story house with a red roof and a small tower is visible. The sky is bright with scattered clouds. The overall scene is a serene and luxurious outdoor setting.

Great pools start with great pool finishes.

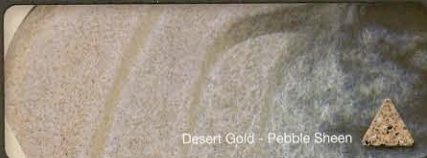

3 distinctive textures. 39 brilliant colors.

Pebble Tec® brand pool finish is the original pebble finish and still delivers the enduring natural elegance and durability that combine beauty with exceptional value. Choose from 18 magical colors offering naturally inspired beauty and durability.

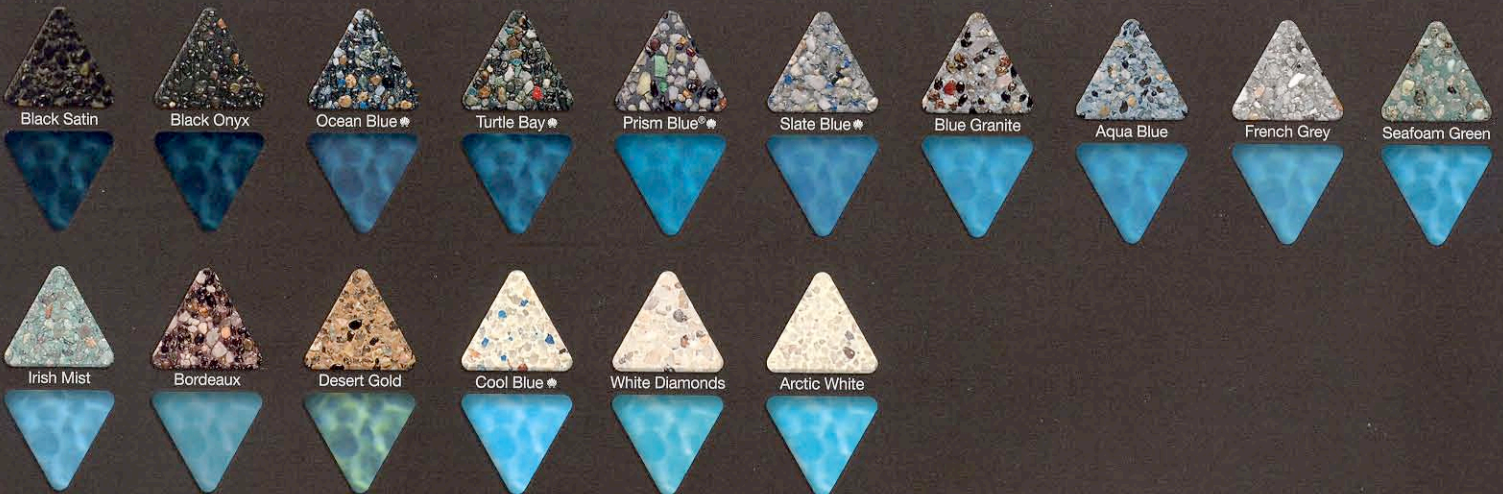

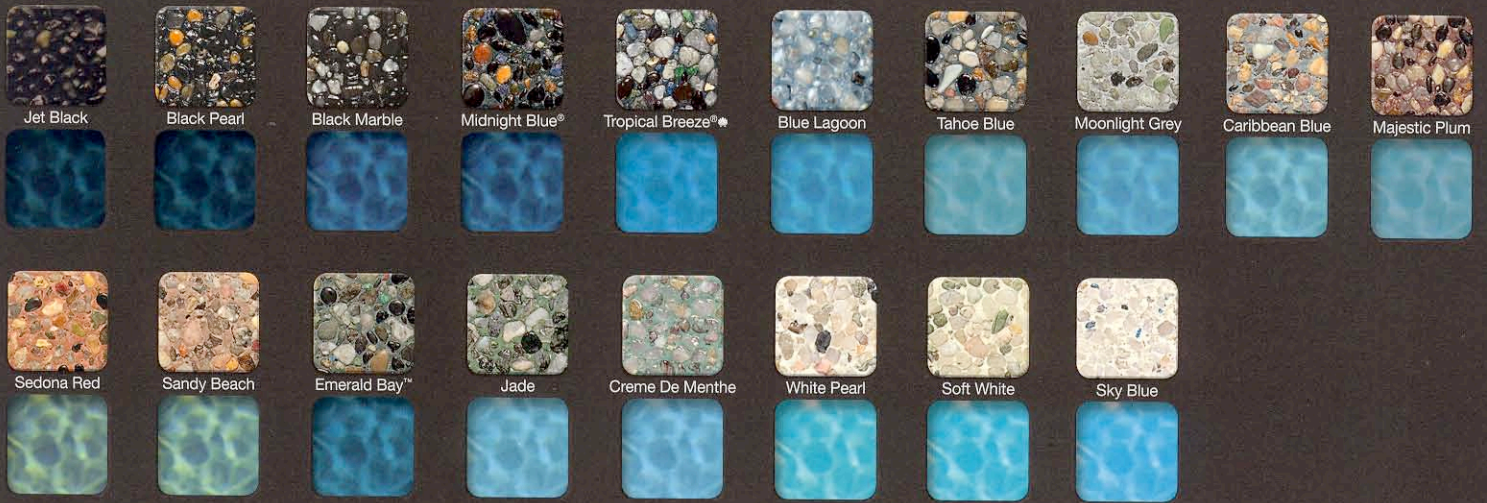

Pebble Sheen® brand pool finish provides the natural beauty and durability of original Pebble Tec, along with a finer texture and more sophisticated elegance. Choose from 16 colors providing timeless elegance and proven dependability.

Pebble Fina® brand pool finishes combine the classic look of venetian plaster and the durability of Pebble Tec for an enduring, timeless elegance. 5 exquisite colors combine old world beauty and durability with new world technology.

One great finish.

Actual finish and water color may differ from printed samples. Variations in color, shade and exposure are normal. The water's depth, angle of sunlight and surrounding landscape can all be determining factors. Actual finish samples produced by Pebble Technology, Inc. should be wet before viewing. Pebble Technology, Inc. strongly recommends viewing pools before deciding on a color. Your pool builder/installer may be able to provide pools to view.

Color uniformity of Pebble Fina® finishes

The application process of Pebble Fina may result in an unevenness of color or swirling effect. This is part of the intended look.

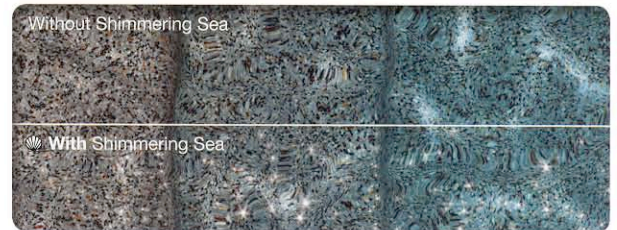

* Disclaimer: Some colors contain seashells, such as abalone and mother of pearl. The shells are made up of material from seawater and from a living mollusk. Due to the nature of shell materials and variables of water chemistry, Pebble Technology, Inc. cannot guarantee the shell materials themselves against changes in color or brilliance. See warranty form for all limitations.

Endless options.

Brilliant splashes of color, blended with small sea shell pieces, bring added sparkle to an already stunning pool finish. See the sunlight sparkle in your pool by day and a glow reflected by your pool light at night. Shimmering Sea sparkling sea shell blend is available in ten beautiful colors (standard portion), or you can add **Shimmering Sea** to any Pebble Tec®, Pebble Sheen® or Pebble Fina® pool finish color you like. If you wish, increase the amount of sea shells you prefer in your pool's interior.

Bring a sparkling, shimmering touch to your waterline with the **Shoreline™ Collection** of tiles, available in a variety of enchanting colors and finishes. **Porcelain tiles** create a colorful, classically elegant look. **Sunset glass tiles** add a radiant burst of energy to the waterline. **Pearluculent glass tiles**, which change in color and tone with variations in movement and light, will bring a luminous rainbow effect to the waterline.

More flexibility.

It's time to turn your old backyard pool into the resort sanctuary you always envisioned. Conventional pool remodel limitations are a thing of the past because **Pebble Tec® brand Superior Quality Pool Finishes** all have unique, flexible design characteristics that allow a pool to blend with landscaping and water features.

Only Pebble Tec® is Pebble Tec®.

*Insist on the original natural pebble
pool finish by name.*

Pebble Tec®, Pebble Sheen® and Pebble Fina® superior quality pool finishes represent a standard of excellence by which all others are measured.
